 - b. From: to
 - c. Notes: All gates were closed October 6
 - d. Estimated days of storage remaining at current pumpage and rainfall: 259 days. (@ raw water pumpage flow 15.916 MGD; Finish flow 18.214 MGD)

Do your part to conserve our water supply!

Wash only full loads of clothes and dishes!

Use the wastebasket instead of the toilet for trash such as facial tissues!

Don't wash your car!

Wise people take quick showers, not full tub baths!

Don't wait to fix that drip! It can waste 25 gallons or more every day!

Wake Up! Running the water while you shave or brush your teeth wastes more water than one person drinks in a week!

Water shrubs with a can or bucket instead of a hose and let your lawn mellow to a nice brown!
