National Emergency Medical Services Week - May 15th – May 21st

The third week in May is set aside each year to celebrate and recognize Emergency Medical Services across the nation.

The goal of National Emergency Medical Services Week is to promote safety and healthy living in the community and also to honor the dedication of our professional staff of EMS Providers in the Portsmouth Fire Department.

This year Portsmouth Fire Department will be holding free blood pressure screenings at various locations throughout the week. Citizens will have the opportunity to meet some of Portsmouth's own "Everyday Heroes" and to obtain valuable information that will help keep them healthy and safe!
