**City of Portsmouth's Storm Debris Removal Sweep
- Hurricane Irene Recovery -**

In an effort to reduce and expedite the removal of storm-related debris, the City of Portsmouth, in addition to the City's Waste Management Division, has contracted with a regional debris removal company to perform a one-time sweep of the city starting Thursday, September 8th. This one-time storm debris collection by the city's contractor will be separate from the City's normal bulk collection schedule.

Storm debris should be stacked at the curb, separate from normal bulk refuse, and leaves should be placed in clear plastic bags.

Upon completion of this one-time sweep, normal bulk collections will resume on the regular schedule.

We appreciate your patience and understanding as we complete this debris removal process. For more information about bulk collection, please call 393-8663.
