Sewer Repair Project at 500 Block of Glasgow Street

Portsmouth, VA - The Department of Public Utilities announces that sewer repair work is underway in the 500 block of Glasgow Street between Washington Street and Dinwiddie Street. The intersection at Washington Street and Glasgow Street will be closed for periods of time during the sewer repair project and signage will direct motorists to the detour route. The sewer repair work is expected to be completed during the week of March 21, weather permitting.

The Greenwich Square parking area that is normally accessed from Washington Street will have temporary access from Dinwiddie Street for the duration of the project. Signs will be in place instructing motorists of this change.

Normal water and sewer service will continue during this project. For more information, call 393-8561.
