City Completes Hurricane Storm Debris Collection

The Department of Public Works is pleased to announce that the storm debris resulting from Hurricane Irene has been collected from neighborhoods across the city. Effective today, the Waste Management Division has resumed the normal bulk collection schedule.

Storm debris that has been placed at the edge of the property since the initial Waste Management Division collections will continue to be collected during normal bulk collection routes. Storm debris should be placed separate from bulk items. These items may be placed at the edge of the property the day before collection or by 7 a.m. the day of collection.

We appreciate the patience and cooperation demonstrated by of our residents as we collected large amounts of tree and yard debris that resulted from the hurricane.

For more information about trash or bulk collection, call the Waste Management Division at 393-8663.
