

NOTICE

PORTSMOUTH WATER CUSTOMERS South of the Western Branch of the Elizabeth River

Due to a break and repair to the City's water transmission main, customers in areas of the City south of the Western Branch of the Elizabeth River may notice some discoloration for a few days. This repair work will not affect your water service nor should any discoloration affect the quality of your drinking water.

Water customers are urged to check their water before laundering clothes over the weekend. If discoloration occurs, flush your water for approximately 15 minutes. If discoloration persists, call the Public Utilities Department at 393-8561 for assistance.

If you have any questions, please contact the Portsmouth Public Utilities Department at 393-8561.
